

Welcome to Am Zehnhoff-Söns!

Your logistic partner with know-how.

Over 100 years ago August am Zehnhoff founded one of the first forwarding agencies in Bonn. Starting in 1907 he offered services such as barge handling, warehousing and conventional truck-transportation, segments which even today are part of the core business of the company. Within the past decades more services have been added and adapted according to market requirements.

Currently the company is led by the 3rd generation of the family who retain the core principles of the company's founder of exceeding the service expectations of their customers.

With over 350 employees and led by a management team committed to reinvestment in the business.

Multimodal container logistics by Am Zehnhoff-Söns

Short distance by truck, long distance by barge or rail are two of Am Zehnhoff-Söns' main focuses. Economical and environmentally friendly; these are the great advantages of our services in the field of container transport. With our effective and modern handling equipment like container gantries, multi-purpose cranes and reach-stackers we guarantee fast and efficient handling. A state of the art truck fleet, which is renewed regularly, completes the services offered by a full-service provider.

Our range includes:

- + Container terminal
- + Container trucking
- + FCL- & LCL-loadings
- + Barge transport
- + Rail transshipment
- + Container depot
- + Container stuffing & stripping
- + Short Sea Shipping
- + Inland waterway transport
- + Door-to-door service
- + Bulk container
- + Container repair
- + Container lease & sales
- + Customs services

Sustainable & reliable – Barge transport

Long distance traffic by barge is the main focus among the container services offered by Am Zehnhoff-Söns. We transship round the clock, more than 50 barge connections a week provide ideal and straight forwarding options as well as fast and environmentally friendly transports from and to our terminals in Bonn and Trier.

Eco-friendly & fast – Rail transshipment

Not least due to their efficiency and environmental friendliness our block train connections between the Multimodal Terminal Trier and the seaports Rotterdam and Antwerp offer an interesting alternative to direct trucking. A capacity of 100 TEU is provided on each journey several times a week.

Modern & efficient – Truck transport

Am Zehnhoff-Söns owns a fleet of trucks (exclusively EURO VI) and chassis. Do you expect the highest standards and maximum of efficiency? Our in-house fleet makes many things possible: environmentally friendly, reliable and always kept up-to-date. We renew our fleet regularly by adapting it to the latest environmental standards.

Flexible & safe – Container depot & repair

Due to our workshops at the terminals Bonn and Trier we are able to check and repair containers in-house. Moreover, numerous carrier and container lease companies make use of Am Zehnhoff-Söns' depot space. So they can respond flexibly to regional market requirements. By using the CODECO system our customers are kept informed about current container levels daily.

Versatile & Limitless – Short Sea Shipping

Short Sea Shipping in particular scores by reliability, huge capacity and environmental aspects. As a service provider with its terminals in Bonn and Trier, we connect the Rhine-Moselle region with Europe.
